INTERMEDIX CORPORATION ACQUIRES HEALTHWARE SOLUTIONS

Fort Lauderdale, FL - Intermedix Corporation, the leading provider of technology-based business services to emergency providers, announced today the acquisition of HealthWare Solutions (“HWS”), a leading provider of electronic patient care reporting software.

HWS, based in Arcata, California, has been delivering its signature product line, EMS Solution Suite™, to leading emergency response agencies throughout the United States since 1999. HWS’s flagship product, EMS Solution 2000™, is a comprehensive mobile data collection tool that allows for patient side documentation of critical incident information. EMS Solution 2000™ is paired with robust validation and reporting modules, ensuring accurate collection and reporting of all necessary data, leading to continuous quality improvement throughout its customer base.

Intermedix is the largest independent provider of medical billing and technology to emergency medical services agencies in the United States. Intermedix provides mobile tablet computers loaded with its Triptix® patient incident reporting software and high speed wireless access for clients to capture patient information at the scene of the incident. Clients pay for this system, along with the billing services, based on a percentage of collections with no up front costs. Shortened collection cycle times and better documentation typically result in improved collections, allowing clients to actually improve their net cash flow when they adopt this advanced technology.

“HealthWare Solutions was a pioneer in the deployment of advanced technology to ambulance crews. Intermedix and its clients will benefit from the years of experience the HWS team possesses in developing and supporting core ePCR technologies and integrations. HWS’s significant and diverse national client base expands Intermedix relationships in the fire/EMS market. We hope to offer significant advantages for HWS clients who choose to take advantage of Intermedix business services, including Revenue Rescue, our emergency response billing offering which is gaining exceptional appeal with Cities and Counties seeking additional revenues.” said Doug Shamon, CEO, of Intermedix Corporation.

About Intermedix Corporation

Intermedix (www.intermedix.com) helps fund and support our nation's emergency safety net - emergency physicians, hospital emergency departments, and 911-emergency responders. We engineer advanced technologies into our business processes to meet incident documentation requirements, realize revenue potential, and provide advanced informatics to our customers. Our solutions are designed for performance and compliance, allowing our customers to focus on saving lives and promoting healthy recoveries from accidents and illnesses.

Intermedix serves the emergency physician and hospital emergency department market through its subsidiary EPBS, the emergency medical services (ambulance) market through its subsidiary ADPI, and the fire response market through its subsidiary Revenue Rescue. Intermedix has clients throughout the United States and has collected billions of dollars for its clients since its founding.
